

SOLAR FIRST-CALL CHECKLIST

Capture the first proposal without giving away leverage or land-use flexibility

Use this on the first call with a solar developer, land agent, broker, or site-acquisition representative.

CALLER AND PROPERTY

Date / time

Property / tract

Caller / title

Company / developer represented

Phone / email

Approx. acres discussed

FIRST-CALL QUESTIONS

1. Is this an option, lease, easement, purchase, access agreement, or preliminary expression of interest?
2. How many acres are targeted, and can you send a map showing panels, roads, collection lines, substation, setbacks, and buffers?
3. How long is the option/development period, how many extensions are allowed, and what is paid for each period?
4. What operating term and renewal options are proposed after construction?
5. How is rent calculated, when does it begin, and what annual escalator or adjustment is proposed?
6. What site access, survey, environmental, geotechnical, title, or testing rights are requested before construction?
7. Will the agreement restrict farming, grazing, hunting, residences, minerals, financing, sale, or other uses of the remaining land?
8. Who is responsible for taxes, crop or livestock damage, roads, drainage, fences, gates, insurance, restoration, and decommissioning?

NEXT STEP

Request the complete draft package, maps, exhibits, and compensation schedule in writing.

Record the next deadline without agreeing that the developer's deadline must control your review.

Notes
